## **Apresentação do bando de documentos GAIA**

Elaborado e criado pela Rede de Mulheres Parlamentares das Américas, o banco de documentos GAIA apresenta os principais estudos e análises publicadas sobre orçamentos baseados na diferença entre gêneros, particularmente publicações e iniciativas realizadas nas Américas. Este banco de documentos tem por objetivo principal informar os parlamentares sobre conceitos básicos e instrumentos que permitem uma análise diferenciada baseada na diferença entre gêneros dos orçamentos nacionais e locais. Neste banco de documentos constam diferentes iniciativas tomadas nos diversos países, WEB sites especializados e algumas pessoas contatos especializadas no assunto, representando assim um apoio aos parlamentares interessados em elaborar projetos sobre tal tema em sua própria assembléia.

## Análise baseada na diferença entre gêneros (mainstreaming)

### Descrição breve

A análise baseada na diferença entre gêneros (*mainstreaming*) avalia e compara as repercussões de diversas políticas e medidas legislativas e governamentais na mulher e no homem em diferentes setores, por exemplo, na saúde e na educação. Os orçamentos constituem, então, um dos diversos aspectos que podem fazer objeto de uma análise baseada na diferença entre gêneros. A presente parte do banco de documentos tem o objetivo de propor-lhe alguns textos de referência sobre a análise baseada na diferença entre gêneros, que apresentam as teorias e os conceitos gerais baseados nesta abordagem. Para maiores detalhes sobre a análise baseada na diferença entre gêneros e suas aplicações, consulte a bibliografia e a lista das pessoas contatos que aparecem no final desta parte.
